

March 1, 2017 7:43pm.

Hearing was continued from Feb 15th.

NOI for 180 Turnpike Rd from Ducharme and Dillis, David Martin owner.

Jack Maloney appeared before the Commission.

We had been out on the property this morning with Jack Maloney and suggested some changes to the plan for replacement of the house and septic system.

Jack had not been able to reach the owner and check on whether the changes would be acceptable to the owner. Because of this, Jack requested that we continue the hearing until March 15, 2017 @ 8:00pm

A few changes were required on the NOI application. These were mostly just a failure to categorize the area as ACEC and Outstanding Resource Water.

Abutters list is for 126 Turnpike Rd. This was submitted with the NOI. Also had the wrong picture of the house. So, not all abutters were notified for this hearing. They will notify the abutters by certified mail.

Motion made and 2<sup>nd</sup> to continue the hearing until March 15, 2017 @ 8:00pm. Vote was unanimous in favor of the motion.

Hearing was continued at 7:50pm
