

Hearing for DEP#93-395 NOI, 584 Main St, BLR Properties, emergency septic repair, continued at 8:30pm on Dec 18, 2019. Maryann DiPinto presented the project.

System had failed. Nothing has yet been done on this project despite the fact that this had been filed as an emergency. So, there is no emergency cert in effect any more since it was only active for 30 days. This is strictly an NOI project as of NOW.

Conditions that were to be in place last time, which were not performed, will be back in the OOC this time as well.

Also follow the construction sequence from the last OOC.

Cathy will write the OOC and see that these conditions are transferred to this new OOC.

A motion was made and seconded to close the hearing. The vote was unanimous in favor of the motion.

The OOC will be mailed to BLR. Next meeting is on Jan 9th, so this will be written and mailed before then.

Hearing closed at 8:45pm
